

Network Setting Instructions

1. Please check that the device you are using such as a Laptop, Tablet, Computer, Smartphone, etc. supports the Wi Fi network function.

2. To set up your wireless network access, please go to “Network Settings” and complete your wireless network setup as illustrated below.

2-1 For Apple iOS devices

2-2 For Google Android OS devices

2-3 If you are using a laptop, please activate the WiFi function and search for the relevant wireless network

3. Open your web browser, you will be automatically directed to the iTaiwan website.

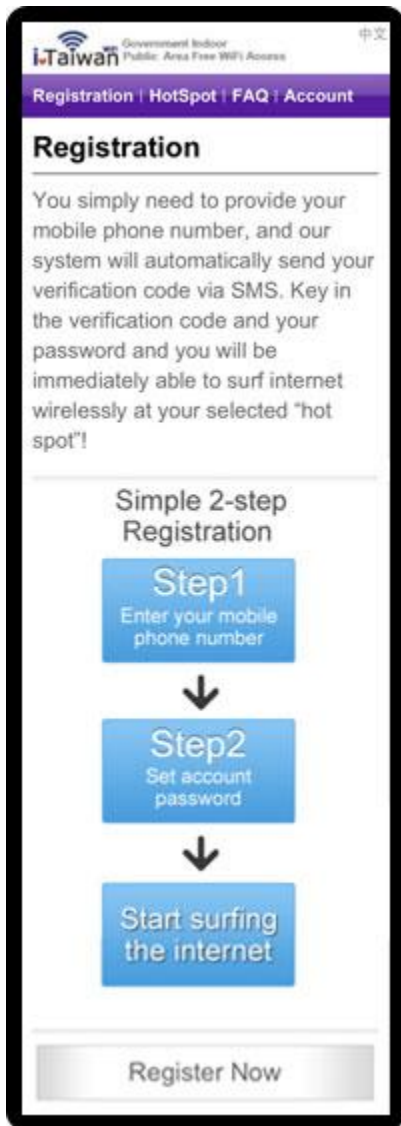

The URL is: <http://itaiwan.gov.tw>

3-1 Enter your iTaiwan account and password to login.

4.If this is the first time accessing the iTaiwan network, you will need to go through a verification process via your mobile phone to register for an account. The process is detailed below:

4-1 Click the "Register" button located at the bottom of screen.

Enter your mobile phone number, graphic code, and then press the “Request for Authorization Code via SMS” button. A 4-digit authorization code will be sent to your mobile phone.

iTaiwan Government Indoor Public Area Free WiFi Access 中文

Registration | HotSpot | FAQ | Account

Step 1 Enter mobile phone number

Mobile phone number
(WiFi account number)

Enter the code shown below
(5-digit)

6788

I have read and agree to the [terms of service](#)

(We will send out an authorization code (Auth Code) by SMS immediately. The registration will only be completed after you activate your account with this code. Please make sure your mobile phone number is correct, otherwise you would not be able to receive the authorization code to complete this process.)

Send me the Auth code and continue

4-3 Enter the authorization code received, your password, and e-mail address.

The screenshot shows the iTaiwan registration interface. At the top, it says "iTaiwan Government Indoor Public Area Free WiFi Access" with a language selector for "中文". Below this is a navigation bar with "Registration | HotSpot | FAQ | Account". The main heading is "Step 2 Set account password". The form includes: "Enter the Auth code received (4-digit)" with an input field; "Account password (6-16 alphabetical/numerical character limit, can be used at any hotspot location)" with an input field; "Re-enter account password" with an input field; "E-mail (for retrieving lost passwords)" with an input field; and a "Confirm" button at the bottom.

4-4 Congratulations, your registration is successfully.

The screenshot shows the iTaiwan registration success page. At the top, it says "iTaiwan Government Indoor Public Area Free WiFi Access" with a language selector for "中文". Below this is a navigation bar with "Registration | HotSpot | FAQ | Account". The main heading is "Step 3 Registration Successful". The text reads: "Account Number Registration Successful! Thank you for registering. You have registered successfully. Welcome to iTaiwan WiFi access services! You can surf the internet with the registered mobile phone number at any iTaiwan Hotspot location. If you have any feedback or suggestions, please feel free to contact us through toll-free telephone or e-mail." Below this, it provides contact information: "TEL: 0800-081-051" and "E-mail: service@itaiwan.gov.tw". At the bottom, there is a button labeled "Start surfing the internet".

5. Log-in and Log-out

5-1 Open your web browser and you will immediately be directed to the log-in page. Enter your mobile phone number and password to log-in.

5-2 After verification, you can see some message that how to logout if you log in successfully.

5-3 if you want to logout from iTaiwan, you can visit <http://88.gov/> and you will be logged out.
